Dear Mr. Watson

My name is **David P. Griffin**; I am pro se in a lawsuit against the City of Austin, and my former employer Public Access Television. This litigation has been on going for over nine months now. The parties concerned have yet to sit down and discuss the facts in the case.

Now, that time has come and what I am asking you for Senior is a safe place to meet and discuss this litigation at the State Capital. I am not asking you or your office to get involved but simply offer a neutral place for the parties to meet and speak of some type of settlement.

I was the Senate Staff Videographer for the 2005 session and a journalist for CBS News for many years and have worked and covered the senate for years. I feel this would be a safe acceptable to both parties environment for this meeting, One to two hours anywhere in the State Capital during the second week in November.

Thank you for your time and consideration.

John A. Heller,
