MOTION FOR INTERRUPTER

Under Rule 183 David P. Griffin, will require an interrupter David is an American with disabilities. His disability is dyslexia he is unable to read or write to take notes. This puts him at a great disadvantage if a document was presented to him all he would see is a piece of paper with symbols.

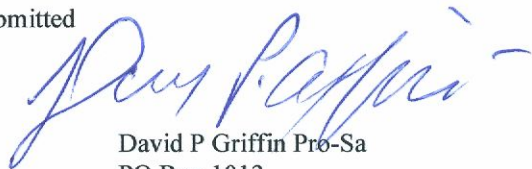

If the court gives oral instructions from the bench David would be unable to take that information down.

I would like to have an interrupter with me at all court proceedings. This interrupter would be for reading and taking notes.

I would provide all cost for this interrupter.

I understand that it is up to the power of the court to appoint an interrupter, but in this case I would like to choose my own interrupter and I David P. Griffin will accept full responsibility for the expense of this interrupter.

Respectfully submitted
